

NEW ORLEANS
MILITARY & MARITIME
ACADEMY

Dear NOMMA Parents and Guardians,

As you are aware, on Friday 13 March 2020, a proclamation was issued by Governor Edwards to close all schools beginning tomorrow 16 March until Monday 13 April 2020. Since that time, members of my administration and I have been participating in teleconference calls with the Louisiana Department of Education and conducting our own internal planning sessions regarding the way-ahead.

I realize you have many questions regarding the next month. It is NOMMA's intent to provide online learning resources to our cadets so that they can continue their educational experience to the maximum extent possible under the circumstances. During the next 48 hours, our team will be preparing classes and developing lessons to continue student learning. We will disseminate additional information to you as plans are finalized.

In the meantime, please follow the preventative measures provided in my last correspondence in order to minimize the spread of germs.

Please continue to monitor the eMail address you have on file at our school, be prepared to receive "robo-calls", and check for updates on our website, nomma.net.

We appreciate your patience and understanding as we work our way, together, through this unique and challenging period.

Thank you,

Col Chris Schlafer, USMC (Ret)
Commandant
New Orleans Military and Maritime Academy
